[Updates itself automatically](#)  
Scanner finds out the latest virus threats

Disables any computer Worms and Hacking tools from entering your computer

Your PC might appear clean... but it could still be full of 'Virus threats' that most antivirus programs fail to detect and it might very well be a Serious threat to your pricacy as many viruses now record everything you type on your PC and broadcast it to the internet. This may include credit card numbers, passwords and sensitive information. Most Anti-virus programs fail to detect all viruses and users need an independent virus scanner in order to detect all viruses in your PC.

Regular Price \$39.95 Only \$19.99 Download Now! 30 Day Money Back Guarantee
